1 WORK SESSION: WALK-THRU OF PUBLIC WORKS FACILITY LOCATED AT APPROXIMATELY 650 WEST 5150 SOUTH 5:00 P.M.

Hanson conducted a walking tour of the Public Works Shops. The purpose of the tour was to determine if there is a need for new shops and give direction to staff as to whether or not to spend time and resources to research options. Hanson noted that the research would include new land acquisition, geo-technical data, location, what to do with existing shops, and finance options. Hanson highlighted the building structural conditions in the case of a natural disaster, the small space and inadequate doors to house equipment, and overall condition of the structures. Council Member Monsen stated that he agrees that the shops are needed; however he requested that more information be given to Council to make their decision. Garrett stated that the charts for long and short term debts can be revisited. Mayor Allen stated that he agrees that staff should look at all options and have a plan ready to go when funding becomes available for the project. Hanson stated that the funding could be built into a 5 year plan. Council Member Brown asked about the possibility of sharing a shop with South Ogden City. Hanson stated that South Ogden has been resistant to these suggestions when approached in the past on various projects. Direction from Council was to pursue research to include land locations, soil analysis on potential land, and financial options.

Mayor Allen adjourned the Work Session at 5:56 p.m.
